

A Global Information Technology Company

Founded in the year 1993, Universal System Technologies, Inc.(UST) is a leading Information Technology (IT) service provider specializing in ERP and Business Intelligence solutions. We are a global consulting leader delivering business, technology and outsourcing services with a commitment to provide innovation, value and complete customer satisfaction.

Every day we think of applying Information Technology to solve the complex problems facing businesses and government institutions - helping them run more efficiently, productively and profitably. Today technology is becoming more and more integrated with our daily lives, but still it is a means to an end and not an end in itself. UST excels in blending technology, people and business process together to create meaningful automation and sophisticated systems. We have successfully implemented e-governance and ERP(Enterprise Resource Planning) systems which has resulted in our clients saving costs and improving performance while also giving them the business intelligence they need to gain competitive advantage.

We are an US company headquartered in Florida (USA).

Our Values

- Conduct business with= honesty and integrity
- Treat our employees and customers with respect
